TEACHER'S EXAMINATION.

The regular State examination for teachers will be held at the court house in Elba on July 20-22, 1925. All who desire to write this examination must be either known by the examiner or vouched for by some responsible person. All applicants will report promptly at 9 o'clock a. m.

J. E. HUDSON, County Superintendent.

Medames S. A. Taylor, J. A. Canley, G. E. Lindsey, W. A. Kelley, Will Owen, O. Dowling, Frank Stanton and Miss Mary Olive Canley attended the quarterly meeting of the W. M. S. at Kinston Tuesday.

Benjamin Franklin was for nearly forty years connected in some capacity or other with the Post Office Department.

Wild turkeys are to be introduced into Oregon, a section of America to which they were never native.

METHODIST CHURCH.

The other day Clarence Darow, alleged a social defender, evolution in the Scopes case at Dayton, Tenn., said, "I object to this court being turned into a prayer meeting, this practice creates an atmosphere harmful to our cause." Whenever prayer of the right sort is harmful to a cause, that cause ought to be abolished. Prayer is harmful to the dance hall. You never did see a dance opened up with a prayer, nor a gambling hall, nor a Sunday There. This would prove harmful to the cause.

The person laughing at evolution is ignorant and bold with it besides; but the person holding that man, like the lower than God, comes from protoplasm alone with the rest of animal life forgets that we, the only created thus, but God breathed into us the breath of life. We do not doubt his ability to make an angel of a wiggle tail, and it would look to us like a real "wiggly tale" when it was finished. But he could create us just as holy with us, just as easily, and why not be satisfied that we were created specially for God's glory, and let the matter alone. Whichever way we came here, it was by divine and supernatural power and that's that.

Mrs. Fred Harper, nee Miss Flossie McIntyre, has placed her membership with us. We are glad to have her.

Mrs. F. M. Lowrey has arrived at the parsonage after a three week's absence. They also will have services at Liberty next Sunday at 3:00 o'clock.

The primary department will have one of those delicious fans installed by next Sunday. They also will have a new set of oak pews to go with their new summer frock of dainty paint on the walls. This will complete one of the daintiest and most beautiful churches in Alabama. Every Methodist

VOLUME XXIX.

ELBA, ALABAMA, THURSDAY, JULY 23RD, 1925.

NUMBER 5.

Hon. John R. Witt Again Visits Coffee In Interest of Farm Bureau; He Likes County; Fine Meetings Held at Victoria and Kinston

It will be very pleasantly recalled by all who met the venerable farmer, vice-president of the state farm bureau, that Mr. Witt, who lives in the Tennessee valley in North Alabama, spent a couple of weeks with us in June working in the interest of co-operative effort among our farmers, and that his efforts were rewarded to the extent of many new members listed for co-operative marketing and other enterprises.

This week Mr. Witt visited a number of farmers and obtained 25 new members, making a grand total of 140 during the past few weeks. Among the many observations made by our friend and visitor from the rich level stretches of the Tennessee valley concerning Coffee County, her people and soils, we give the following:

Says Mr. Witt, "I have traveled all over Alabama and the South, and I find in Coffee County the most hospitable and law abiding citizenship with the least trace of evil effects of whiskey, the most progressive and extensive program for good roads, the best cotton lands the fastest mules, and the widest spread religious atmosphere generally among our people."

Splendid Meetings Held at Victoria and Kinston.

During the past week two fine farmers' meetings were held at Victoria and Kinston. Over a dozen farmers at Victoria joined hands in our co-operative movement, and Mr. Witt and Dr. Braswell spoke to one of the largest community gatherings of people we have ever had in the county.

We have given another date at Victoria for Saturday afternoon July 25. At Kinston we had three rains and a good crowd to boot. The spirit of co-operative endeavor and progress and general good feeling has peculiarly characterized these Kinston folks ever since we have been here. D. Rowe, J. W. Lee and the privilege of meeting with them, and Mr. Witt termed them an unusual fine spirited people. Kinston is loyal to their own interests, their churches and schools, and when people dwell together in such bonds of brotherly love and helpfulness, the Lord will not forsake them.

County Wide Meetings This Week On Thursday, July 23.

We will have the best talent available to speak to the farmers at these two meetings and we invite everybody to attend. After the meetings we will conduct the crowd to field demonstrations at nearby farms. We will show you how to make cotton in spite of the weevil; we will show you how to grow good corn without fertilizer by sowing vetch this fall on lands intended for corn next spring.

Car Vetch Seed Bought For The County.

Every farmer can avail himself of the cheap vetch seed which we have bought in car lots. One sack of seed will plant 10 acres and add much fertility to the soil. Ask those who attended the demonstrations this week what they think of the results of hairy vetch for corn fertilizer. Send in your order for seed to the Coffee County Farm Bureau today.

Mrs. J. J. Farris and Mr. Frances Farris spent Sunday with relatives in Ozark.

Mr. Broughton Ham has returned to his home here from Fort Benning, Ga.

Mrs. Terry Kendrick and Mrs. J. W. Kendrick spent Monday in Troy.

K. OF P. DISTRICT CONVENTION AT NEW BROCKTON.

According to announcement just made by grand lodge officers, the Knights of Pythias District Convention for this district will be held at New Brockton on Friday, July 31. The Grand Chancellor, the Grand Keeper of Records and Seals, and the grand officers will be present. It is understood that the New Brockton Lodge will put on a splendid program for the convention, and a large crowd is expected. Members of Riverside Lodge No. 156, at Elba, are urged to attend this convention. We feel sure the time will be well spent, and that you will enjoy the convention.

MR. SHARPLESS BRINGS IN FIRST OPEN BOLL.

Mr. R. C. Sharpless, well known farmer living on Elba, brought to the Clipper the first open boll of cotton on last Saturday. The boll is fully matured and looks fine. Mr. Sharpless says that he has a good yield. The first bloom was found on June 17th, and the open boll was brought in on July 18th, which goes to show that we have been having some fine cotton weather.

STORE IS BEING REPAIRED ON SOUTH SIDE SQUARE.

Workmen have already started tearing away the front of the store building on the South side of the Co-Square, which is now occupied by Rainer Motor Co., preparatory to a general re-arrangement and rebuilding.

The building is to be equipped with a solid plate glass front, and everything will be conveniently arranged. This will be one of the nicest stores in town when it is completed, and will be a nice home for the Rainer Motor Company's tire and accessory business. The building is the property of Mr. J. E. Young, and the work of rebuilding is being done by Lamar Fleming, contractor of Enterprise.

REVIVAL AT LEE.

Rev. C. O. Helms will begin a revival at Lee School house the second Sunday night in August. The services in the day will be at 11 o'clock and the services at night will be at 7:30 o'clock. The meeting will continue for several days.

When you're hungry, come around and get one of our ham sandwiches, hamburger's, egg sandwich, hot dog or anything else you want. We fix it just like you want it. Bullard's Lunch Stand.

Mr. and Mrs. S. B. Young and Grafton Young left Sunday for a visit to Atlanta, Ga.

Mr. Grady Rhodes, who is at attending summer school at Newton spent last week end in Elba with his parents, Mr. and Mrs. D. C. Rhodes.

Misses Clyde and Annalee Simmons of Andalusia are visiting their sister, Mrs. G. E. Lindsey.

Miss Sara Abt, of Troy spent last week in Elba the guest of her aunt, Mr. D. M. Pearson, and her cousin, Mrs. Sam Rowe.

Commissioners' Court of Coffee county was in session at Enterprise Monday and Tuesday of this week transacting routine business. The next term will be held at Elba, which will be the regular term in August.

Hudson Gives Information About Election To Be Held August 3

There is an impression among some of the citizens of the county that the election to be held August 3rd is for the purpose of increasing the taxes of the county. This is impossible since we are already collecting the full limit under the Constitution. We are collecting the one mill and three mill county tax for school purposes and have been doing so for years past. The one mill levy expired last year and the people voted it back on by a six to one majority. The three mill levy expires in the near future and this election is for the purpose of renewing it.

Under the law no school district can vote upon itself the local three mill district tax for a longer period than this county three mill tax runs. This being the case some of the districts are handicapped by not being able to vote it on to a length of time sufficient to enable them to carry out plans for the erection of new and modern school buildings as they wish to.

Without this tax the school term in Coffee county would be beyond any question of a doubt dropped back to three and one half or four months. This is a condition that none of us want to see, so let's explain this proposition to those who do not understand it. It is not an increase in taxation but the continuation of what we already have.

Respectfully,
J. E. HUDSON
County Superintendent

T. E. L. CLASS ENJOYS PICNIC.

The T. E. L. Class of the Baptist S. S. enjoyed a picnic in the park below the home of Mrs. J. E. Hudson last Wednesday. This is an ideal place for such an occasion and lawn swings and seats had been placed there making the comfort and pleasure for the crowd complete. A beautiful dinner was spread at the noon hour. Stunts and trick games afforded much fun in the afternoon. Mrs. Lina Mizell, of Samson, was the hostess. The plant at Springs and Mrs. Murray Fancher, of Coleator, were guests of the Class at this most delightful affair.

Miss Bernice Kingsley, of Ozark is visiting her aunt, Mrs. H. C. Johnson.

Mr. Bartow Bullard, of Florida was the guest of his mother at Elba last week.

Miss Pauline Carmichael, of Montgomery, is visiting her grandmother, Mrs. W. P. Boyd.

Misses Margaret Garrett and Eunora Farris left last week for Nashville, Tenn., where they will attend the last half of summer school at Peabody College.

Miss Marie Ham, who has been attending school at Montevallo, has returned to her home at Elba.

SACRED HARP SINGING AT TROY.

There will be a Sacred Harp Singing at Troy, Ala., next Sunday, July 26th. All singers are invited.

G. L. Beck.

Mrs. J. B. Hayes and sons, John Randall and Douglas, of Beckenridge, Texas, arrived Tuesday for a visit to Mr. and Mrs. J. W. Kendrick. Mrs. Hayes was before her marriage Miss Veronica Mullins and was a popular and much loved teacher in the Elba High School.

ELECTRIC CURRENT, ON AND OFF, MOSTLY OFF. PUBLIC WAITS.

The people of Elba who are now using electric power in the operation of their businesses, have been inconvenienced quite a bit this week on account of the service being rendered by the Pea River Power Company. The water of Pea River is unusually low on account of the long dry spell, and it is reported that the Troy plant of the company is broken down. The current is on part of the day, but is so weak that motors will hardly run. Then just about the time you get started off real good the current goes off. We have managed to get out this issue of the paper by staying with the current as long as it stays on, but all the time we feel that we are injuring our motors and machinery by trying to run with such deficient power.

It is not our purpose to be placed in the list of kickers, and we do not like to be starting the fuss but it seems to us that the people of Elba, especially those who depend on electric power, should take steps now that will insure a better service in the months that are just ahead. It will be remembered what an inconvenience with Dr. Rankin at Elba, either by letter or telephone, and he can arrange dates for meeting. Dr. Rankin states that just as soon as he can he will establish regular clinics in different parts of the county, so that all people can be reached regularly. But so far he has been quite busy in getting his office equipped and other details arranged, and has not yet had time to make a complete survey of the county and establish these clinics.

There is much work to be done in the county, and this must be done in a systematic and businesslike way. Dr. Rankin says that he has already seen enough to keep him and his assistants busy for several months. Anyone desiring any assistance or information from the Health Unit should not hesitate to communicate with the office at Elba.

The people of Elba, as well as those of the other towns, who are served by the Pea River Power Company, are certainly very patient. They get a promise and then they wait and suffer the inconvenience. We have no grudge against the Pea River Power Company or any person connected with it, but we do think that it is now time that they begin to give the people better service. They know local conditions, and know that the river at Elba will not furnish power for the year round. The plant at Troy will not take care of the situation, but they still depend on these plants without making the necessary improvement. We have no grudge against the people of Elba, Troy, Opp, Samson and Brundidge are going to sit down and wait forever!

Mrs. Andrew Mosley and son, of Sylacauga, were guests of Mrs. J. E. Hudson Monday.

Prof. L. C. Kersh has returned from Auburn where he attended summer school.

Mrs. J. V. Wright is visiting her brother, Mr. Willie Hutchison in Enterprise this week.

Mr. and Mrs. R. T. McCollough, Sr., of Birmingham are visiting Rev. and Mrs. S. A. Taylor.

Miss Jay Cosby, student of S. N. S. Troy spent last week end in Elba with her parents, Mr. and Mrs. J. W. Cosby.

Mrs. Annie King and Miss Anita King have returned from a visit to relatives in Panama City, Fla.

Mr. and Mrs. F. A. Symonds and Miss Annierhea Symonds of Marianna Fla., visited in Elba the first of the week. Mr. Symonds acted as instilling of the first of the week. They trust that she may soon be well again.

County Health Unit Now Ready to Give Free Typhoid Vaccine

Dr. Rankin, Coffee County Health Officer, Monday announced that he is now ready to give typhoid vaccine to the people of the county who desire to take it, and this treatment will be absolutely free of charge.

The only condition is that twenty-five or more get together at some designated place—school house, church, store or at a residence, and Dr. Rankin will come to the place and administer the vaccine.

He has already been making visits to different sections of the county where the people wanted his services and in one day on one of these rounds gave the typhoid vaccination to nearly three hundred persons. It does not matter how many get together at any place but it is not practicable for him to visit any place where there are not as many as 25 persons to be treated. Any person in any community interested in getting this treatment should get in communication with Dr. Rankin at Elba, either by letter or telephone, and he can arrange dates for meeting. Dr. Rankin states that just as soon as he can he will establish regular clinics in different parts of the county, so that all people can be reached regularly. But so far he has been quite busy in getting his office equipped and other details arranged, and has not yet had time to make a complete survey of the county and establish these clinics.

There is much work to be done in the county, and this must be done in a systematic and businesslike way. Dr. Rankin says that he has already seen enough to keep him and his assistants busy for several months. Anyone desiring any assistance or information from the Health Unit should not hesitate to communicate with the office at Elba.

WILL HAVE BIRTHDAY CELEBRATION.

On August 6th, the family and friends of Mr. R. C. Sharpless will gather at his home for a family re-union, the occasion being Mr. Sharpless' sixty-fifth birthday.

Mr. Sharpless asks us to invite his friends to meet with them on that day for the celebration. It is a day of much happiness and pleasure for this family and the friends who meet with them.

Dr. S. W. May, of Brantley, was here the first of the week.

Hot lunches, hot coffee, ice cold milk and soft drinks, at all times. Bullard's Lunch Stand.

Mrs. O. S. Rainer and children of Arion, were guests of relatives here the first of the week.

Mrs. Thompson and children of Tampa, Fla., are the guests of Mrs. Thompson's aunt, Mrs. E. L. Harper this week.

Mr. and Mrs. E. E. Vaughn and daughter Miss Carrie spent several days in Montgomery last week, while there Miss Carrie had a tonsil operation.

Mr. and Mrs. S. H. Brock and Mr. and Mrs. R. G. Hutchison went to Montgomery Monday.

Mr. and Mrs. Hutchison are staying at the Whiteley for a few days where Mr. Hutchison is having medical attention.

The many friends of Mrs. J. D. Lee will regret to learn of her illness at the Memorial Hospital in Montgomery, where she underwent an operation the first of the week. They trust that she may soon be well again.

POOR ORIGINAL

NEW HOPE SINGING.

The people met at New Hope on last third Sunday to sing in the Sacred Harp. The class was called to order by the chairman singing two songs. The committee then reported a lesson by four, three songs each: Hamp Fowler, Shelby Killingsworth, Will Dismuke and Dock Wilks. Recess ten minutes.

Class was called to order by the chairman singing two songs. The committee then reported a lesson by five, two songs each: Ren Wood, Stealing Willoughby, Jim Jones, Louis Helms and Luther Chancey. The chairman then sang one song and was dismissed by Rev. Plant until next third Sunday. Everybody is invited to come. Lilla Mae Johnson, Secy.

GRAVE YARD WORKING AT ZOAR.

There will be a grave yard working at Zoar Church on next Saturday, July 25th. All persons interested are requested to be present on this occasion.

Misses Mary Ella Boazman and Nettie Flourmy, who have been in summer school at Auburn returned to their homes here Saturday.

FIDELIS CLASS PRESENTS PRORAM AT CHURCH—

The following program was given by the Fidelis Class of the Baptist S. S., at the Church Wednesday evening:

Reading: A Letter to Mother in Heaven—Miss Marie Dantzler.
Piano, Meditation in Spring-Time in Forest—Miss Vonelle Eiland.
Vocal—Teach me to Pray—Miss Beatrice Brunson.
Vocal Duet—Miss Mabel Brunson and Mrs. S. A. Taylor.
Piano—Valse Caprice—Miss Hattie Mae Bullard.
Piano Duet—Misses Hattie Mae and Annie Laurie Bullard.
Reading: Comfort—Mrs. L. M. Ham.
Piano: Flying Cloud—Mrs. T. A. Tatum.
Misses Lillie Harper, Evelyn Alfred, Barbara Carlisle and Mrs. Ross Clark served as ushers.

Mr. and Mrs. Jordan Lindsey returned to Elba Monday after a visit to Mrs. Lindsey's parents Mr. and Mrs. J. N. Ham, Jr., at Seagrave, Fla.

Mr. and Mrs. H. C. Johnson and children spent Sunday in Ozark, guests of Mrs. Johnson's parents, Mr. and Mrs. J. M. Dowling.

Tom Moore's Visit to This Country Recalled

Thomas Moore's visit to Niagara and other parts of Canada in 1894 is recalled by a Niagara reader of the Toronto Globe.

"I first heard of it," he says, "when visiting the house Moore lived in at Ste. Anne. An old French gentleman who took us to the house told us that few Canadians seemed to know that Moore had lived in Canada for many months and written a number of poems and songs while here. He quoted 'The Whip-poor-will,' and said it was written at Niagara. The old house of Maria Matilda (who was killed while saving the guns May 27, 1813), now owned by Dr. Usher, was the house from which the smoke so gracefully curled for it was the only house whose chimneys could be seen from Fort George."

Moore's collected poems contain a group of his compositions while in America, passing through the eastern states to Buffalo, Niagara falls, Niagara, Montreal, Quebec and Halifax. It is evident from his poems and his prose introduction that he was a very happy visit, though a poem like "The Canadian Boat Song" is a worthy fruit of his impressions. When he took ship at Halifax his farewell poem referred to "chill Nova Scotia's unproving strand," and there are references to what he considered the crudity of the New world.

How Malays Get Fire From Compressed Air

The inhabitants of the Malay peninsula have a method of obtaining fire which is probably unique among primitive peoples. They utilize the principle that a compression of air raises its temperature, one known to every man who has ever pumped up a tire, but one which is most surprising to find in the possession of a group of aborigines.

A tiny pump of wood, hardly more than three inches in length and with a bore of about half an inch, is used, says the New York World. This pump is open at one end, closed at the other. The piston out of the pump is dipped in tinder, which the native carries in a mot's cocoon, which makes an absolutely watertight container. The piston is placed in the pump and the knob struck sharply.

The compression of the air raises the temperature to such a degree that the tinder is ignited, and when the piston is withdrawn it is found to be glowing. The native blows on the glowing mass, inserts it into his ready-made tinder, and presto! a fire is kindled. This method is quicker by far than the friction method used by most primitive races.

Man's Chief Interest

She had gone out to dinner with her sister. She had felt in particularly gay and happy mood, and had talked she felt quite contentedly of this and that. Many had been the amusing incidents she had told.

But toward the end of the evening her sister seemed very dejected and unhappy.

"What has been the trouble? Did anything happen today to make you blue?" she asked. Surely the evening had been a success.

"No, the day was a very good one," he said.

"But tonight? Haven't you enjoyed it?" she asked, surprised.

"Well," he returned, "you know a man likes to talk about his wife, and he takes a girl out, and you haven't given me a chance all evening."

Momentous Question

The following anecdote is taken from the "Life of the Rt. Hon. Sir Henry Campbell-Bannerman," by A. A. Spender. A picture appeared in an English paper which bore the title, "Is Peace or War?" in which Campbell-Bannerman was photographed talking with King Edward. Around them the visitors stood at a respectful distance.

A friend of his said later: "The artist has hit you off very well. Campbell-Bannerman looked at the picture quickly and said: 'Would you like to know what the king was saying to me?' The friend said he would. 'He wanted to have my opinion whether he had been better talked or boiled.'"

Bird Does Scavenger Work

The adjutant bird is a voracious carrion-eating East Indian stork, sometimes 6 feet in height and 14 feet in length. It is especially applied to that portion of the city—Constantinople proper—that lies south of the Golden Horn, as distinguished from the Christian Constantinople, lying on the north side. Stambul occupies the site of ancient Byzantium and contains the mosque of St. Sophia, the Seraglio and almost all the antiquities to be seen in the city. Christian Constantinople is presently a commercial quarter. The name is written also Istanbul—Kansai City Star.

Turkish Name for Capital

Stambul is the Turkish name of Constantinople. It is especially applied to that portion of the city—Constantinople proper—that lies south of the Golden Horn, as distinguished from the Christian Constantinople, lying on the north side. Stambul occupies the site of ancient Byzantium and contains the mosque of St. Sophia, the Seraglio and almost all the antiquities to be seen in the city. Christian Constantinople is presently a commercial quarter. The name is written also Istanbul—Kansai City Star.

Co-Operative Marketing Rallies Well Attended At Elba and Enterprise; Coffee County Farm Bureau Does \$235,755.00 Business First Year

Two splendid meetings were held at Elba and Enterprise the past week on co-operative marketing with M. H. Pearson of the Alabama Extension Service and Mr. Massey of the Alabama Farm Bureau present.

Much interest was manifested in the work already accomplished by the co-operating farmers of the county, and greater plans laid for another year's work. The Secretary's report showed a total of \$235,755.00 business handled by the local organization during the past year, including fertilizers, seeds, feeds, poisons etc., purchased co-operatively and cotton marketed co-operatively. Total savings to the farmers participating amounted to over \$35,000.00 figured from an ultra-conservative basis.

One year ago the local bureau had 135 members. Today over 500 farmers are enrolled and more joining the ranks of the Great Farmers Co-operative Movement that is sweeping the nation from pole to pole and ocean to ocean.

The goal set for the Coffee organization another year is a half million dollar co-operative business.

The Elba Clipper has had its difficulties this week as well as all others who depend upon the electric power. As stated above the current was not on Monday or Tuesday, and this paper has all been gotten up since Tuesday night. Of course there are several things which we would have been glad to have gotten in this paper. We publish only a part of the semi-annual report of the county treasurer.

The chief source of worry during these periods, is the milk supply. Its source, its purity and its food value. It is not always convenient to get market milk of dependable quality for in many sections of the country, adequate facilities for its care are not provided.

To meet the needs of mothers in those trying situations, science has provided a form of milk, conveniently carried and easily prepared. The cans are in two sizes, the one containing six ounces and the other sixteen.

Evaporated milk is just pure cows' milk more than half of the water removed. None of its food value is lost; in fact its digestibility is improved. It is easily mixed with water and is, undoubtedly, the most practical form of milk for use as a food for children. Some of the country's leading pediatricians recommend its use, employing the following formula:

From Sixth Week to Third Month.
Milk, evaporated 4 ounces
Lime water 2 ounces
Milk sugar 2 ounces
Boiled water 24 ounces
Five feedings in twenty-four hours, 1 to 6 ounces at three-hour intervals during the day and four-hour intervals at night.

From Third Month to Fifth Month.
Milk, evaporated 16 ounces
Lime water 2 ounces
Milk sugar 2 ounces
Boiled water 24 ounces
Five feedings in twenty-four hours, 1 to 6 ounces at three-hour intervals during the day and four-hour intervals at night.

From Fifth to Seventh Month.
Milk, evaporated 16 ounces
Lime water 2 ounces
Milk sugar 2 ounces
Boiled water 24 ounces
Five feedings in twenty-four hours, 1 to 6 ounces at three-hour intervals during the day and four-hour intervals at night.

From Seventh to Ninth Month.
Milk, evaporated 11 ounces
Lime water 2 ounces
Milk sugar 2 ounces
Boiled water 24 ounces
Five feedings in twenty-four hours, 1 to 6 ounces at three-hour intervals during the day and four-hour intervals at night.

From Ninth to Twelfth Month.
Milk, evaporated 12 ounces
Lime water 2 ounces
Milk sugar 2 ounces
Boiled water 24 ounces
Five feedings in twenty-four hours, 1 to 6 ounces at three-hour intervals during the day and four-hour intervals at night.

From Twelfth Month to First Month.
Milk, evaporated 12 ounces
Lime water 2 ounces
Milk sugar 2 ounces
Boiled water 24 ounces
Five feedings in twenty-four hours, 1 to 6 ounces at three-hour intervals during the day and four-hour intervals at night.

From First Month to Third Month.
Milk, evaporated 12 ounces
Lime water 2 ounces
Milk sugar 2 ounces
Boiled water 24 ounces
Five feedings in twenty-four hours, 1 to 6 ounces at three-hour intervals during the day and four-hour intervals at night.

From Third Month to Fifth Month.
Milk, evaporated 12 ounces
Lime water 2 ounces
Milk sugar 2 ounces
Boiled water 24 ounces
Five feedings in twenty-four hours, 1 to 6 ounces at three-hour intervals during the day and four-hour intervals at night.

From Fifth Month to Seventh Month.
Milk, evaporated 12 ounces
Lime water 2 ounces
Milk sugar 2 ounces
Boiled water 24 ounces
Five feedings in twenty-four hours, 1 to 6 ounces at three-hour intervals during the day and four-hour intervals at night.

From Seventh Month to Ninth Month.
Milk, evaporated 12 ounces
Lime water 2 ounces
Milk sugar 2 ounces
Boiled water 24 ounces
Five feedings in twenty-four hours, 1 to 6 ounces at three-hour intervals during the day and four-hour intervals at night.

From Ninth Month to Twelfth Month.
Milk, evaporated 12 ounces
Lime water 2 ounces
Milk sugar 2 ounces
Boiled water 24 ounces
Five feedings in twenty-four hours, 1 to 6 ounces at three-hour intervals during the day and four-hour intervals at night.

From Twelfth Month to First Month.
Milk, evaporated 12 ounces
Lime water 2 ounces
Milk sugar 2 ounces
Boiled water 24 ounces
Five feedings in twenty-four hours, 1 to 6 ounces at three-hour intervals during the day and four-hour intervals at night.

From First Month to Third Month.
Milk, evaporated 12 ounces
Lime water 2 ounces
Milk sugar 2 ounces
Boiled water 24 ounces
Five feedings in twenty-four hours, 1 to 6 ounces at three-hour intervals during the day and four-hour intervals at night.

From Third Month to Fifth Month.
Milk, evaporated 12 ounces
Lime water 2 ounces
Milk sugar 2 ounces
Boiled water 24 ounces
Five feedings in twenty-four hours, 1 to 6 ounces at three-hour intervals during the day and four-hour intervals at night.

From Fifth Month to Seventh Month.
Milk, evaporated 12 ounces
Lime water 2 ounces
Milk sugar 2 ounces
Boiled water 24 ounces
Five feedings in twenty-four hours, 1 to 6 ounces at three-hour intervals during the day and four-hour intervals at night.

From Seventh Month to Ninth Month.
Milk, evaporated 12 ounces
Lime water 2 ounces
Milk sugar 2 ounces
Boiled water 24 ounces
Five feedings in twenty-four hours, 1 to 6 ounces at three-hour intervals during the day and four-hour intervals at night.

From Ninth Month to Twelfth Month.
Milk, evaporated 12 ounces
Lime water 2 ounces
Milk sugar 2 ounces
Boiled water 24 ounces
Five feedings in twenty-four hours, 1 to 6 ounces at three-hour intervals during the day and four-hour intervals at night.

From Twelfth Month to First Month.
Milk, evaporated 12 ounces
Lime water 2 ounces
Milk sugar 2 ounces
Boiled water 24 ounces
Five feedings in twenty-four hours, 1 to 6 ounces at three-hour intervals during the day and four-hour intervals at night.

From First Month to Third Month.
Milk, evaporated 12 ounces
Lime water 2 ounces
Milk sugar 2 ounces
Boiled water 24 ounces
Five feedings in twenty-four hours, 1 to 6 ounces at three-hour intervals during the day and four-hour intervals at night.

From Third Month to Fifth Month.
Milk, evaporated 12 ounces
Lime water 2 ounces
Milk sugar 2 ounces
Boiled water 24 ounces
Five feedings in twenty-four hours, 1 to 6 ounces at three-hour intervals during the day and four-hour intervals at night.

From Fifth Month to Seventh Month.
Milk, evaporated 12 ounces
Lime water 2 ounces
Milk sugar 2 ounces
Boiled water 24 ounces
Five feedings in twenty-four hours, 1 to 6 ounces at three-hour intervals during the day and four-hour intervals at night.

From Seventh Month to Ninth Month.
Milk, evaporated 12 ounces
Lime water 2 ounces
Milk sugar 2 ounces
Boiled water 24 ounces
Five feedings in twenty-four hours, 1 to 6 ounces at three-hour intervals during the day and four-hour intervals at night.

From Ninth Month to Twelfth Month.
Milk, evaporated 12 ounces
Lime water 2 ounces
Milk sugar 2 ounces
Boiled water 24 ounces
Five feedings in twenty-four hours, 1 to 6 ounces at three-hour intervals during the day and four-hour intervals at night.

From Twelfth Month to First Month.
Milk, evaporated 12 ounces
Lime water 2 ounces
Milk sugar 2 ounces
Boiled water 24 ounces
Five feedings in twenty-four hours, 1 to 6 ounces at three-hour intervals during the day and four-hour intervals at night.

Big Peanut Shelling Plant Being Installed By Boyd & Murphree

Boyd and Murphree, local produce dealers, are installing a large peanut shelling plant at their warehouse in West Elba and if everything goes along smoothly, the plant will be in operation within the next two weeks.

The plant will have a capacity of about twenty-five or thirty tons per day. If you will stop to think about it that some shelled peanuts. These nuts, that is the select ones, will be shipped to the confectionery dealers all over the country.

Boyd and Murphree have a large stock of peanuts already on hand and when these are shelled up, they plan to ship in peanuts to their mill to be shelled. The new plant is being equipped with steam power and will be ready for operation at all times, when the machinery is completely installed.

People in the several towns depending upon the Pea River Power Company have already begun to kick and will continue to kick until SELVCE is forthcoming. They feel that they are entitled to service and should have it. The water in Pea River continues at a very low stage, and unless heavy rains set in the plant here will not be of much service in some time.

The Clipper has had its difficulties this week as well as all others who depend upon the electric power. As stated above the current was not on Monday or Tuesday, and this paper has all been gotten up since Tuesday night. Of course there are several things which we would have been glad to have gotten in this paper. We publish only a part of the semi-annual report of the county treasurer.

The chief source of worry during these periods, is the milk supply. Its source, its purity and its food value. It is not always convenient to get market milk of dependable quality for in many sections of the country, adequate facilities for its care are not provided.

Milk, evaporated 12 ounces
Lime water 2 ounces
Milk sugar 2 ounces
Boiled water 24 ounces
Five feedings in twenty-four hours, 1 to 6 ounces at three-hour intervals during the day and four-hour intervals at night.

From Twelfth Month to First Month.
Milk, evaporated 12 ounces
Lime water 2 ounces
Milk sugar 2 ounces
Boiled water 24 ounces
Five feedings in twenty-four hours, 1 to 6 ounces at three-hour intervals during the day and four-hour intervals at night.

From First Month to Third Month.
Milk, evaporated 12 ounces
Lime water 2 ounces
Milk sugar 2 ounces
Boiled water 24 ounces
Five feedings in twenty-four hours, 1 to 6 ounces at three-hour intervals during the day and four-hour intervals at night.

From Third Month to Fifth Month.
Milk, evaporated 12 ounces
Lime water 2 ounces
Milk sugar 2 ounces
Boiled water 24 ounces
Five feedings in twenty-four hours, 1 to 6 ounces at three-hour intervals during the day and four-hour intervals at night.

From Fifth Month to Seventh Month.
Milk, evaporated 12 ounces
Lime water 2 ounces
Milk sugar 2 ounces
Boiled water 24 ounces
Five feedings in twenty-four hours, 1 to 6 ounces at three-hour intervals during the day and four-hour intervals at night.

From Seventh Month to Ninth Month.
Milk, evaporated 12 ounces
Lime water 2 ounces
Milk sugar 2 ounces
Boiled water 24 ounces
Five feedings in twenty-four hours, 1 to 6 ounces at three-hour intervals during the day and four-hour intervals at night.

From Ninth Month to Twelfth Month.
Milk, evaporated 12 ounces
Lime water 2 ounces
Milk sugar 2 ounces
Boiled water 24 ounces
Five feedings in twenty-four hours, 1 to 6 ounces at three-hour intervals during the day and four-hour intervals at night.

From Twelfth Month to First Month.
Milk, evaporated 12 ounces
Lime water 2 ounces
Milk sugar 2 ounces
Boiled water 24 ounces
Five feedings in twenty-four hours, 1 to 6 ounces at three-hour intervals during the day and four-hour intervals at night.

From First Month to Third Month.
Milk, evaporated 12 ounces
Lime water 2 ounces
Milk sugar 2 ounces
Boiled water 24 ounces
Five feedings in twenty-four hours, 1 to 6 ounces at three-hour intervals during the day and four-hour intervals at night.

From Third Month to Fifth Month.
Milk, evaporated 12 ounces
Lime water 2 ounces
Milk sugar 2 ounces
Boiled water 24 ounces
Five feedings in twenty-four hours, 1 to 6 ounces at three-hour intervals during the day and four-hour intervals at night.

From Fifth Month to Seventh Month.
Milk, evaporated 12 ounces
Lime water 2 ounces
Milk sugar 2 ounces
Boiled water 24 ounces
Five feedings in twenty-four hours, 1 to 6 ounces at three-hour intervals during the day and four-hour intervals at night.

From Seventh Month to Ninth Month.
Milk, evaporated 12 ounces
Lime water 2 ounces
Milk sugar 2 ounces
Boiled water 24 ounces
Five feedings in twenty-four hours, 1 to 6 ounces at three-hour intervals during the day and four-hour intervals at night.

From Ninth Month to Twelfth Month.
Milk, evaporated 12 ounces
Lime water 2 ounces
Milk sugar 2 ounces
Boiled water 24 ounces
Five feedings in twenty-four hours, 1 to 6 ounces at three-hour intervals during the day and four-hour intervals at night.

From Twelfth Month to First Month.
Milk, evaporated 12 ounces
Lime water 2 ounces
Milk sugar 2 ounces
Boiled water 24 ounces
Five feedings in twenty-four hours, 1 to 6 ounces at three-hour intervals during the day and four-hour intervals at night.

From First Month to Third Month.
Milk, evaporated 12 ounces
Lime water 2 ounces
Milk sugar 2 ounces
Boiled water 24 ounces
Five feedings in twenty-four hours, 1 to 6 ounces at three-hour intervals during the day and four-hour intervals at night.

From Third Month to Fifth Month.
Milk, evaporated 12 ounces
Lime water 2 ounces
Milk sugar 2 ounces
Boiled water 24 ounces
Five feedings in twenty-four hours, 1 to 6 ounces at three-hour intervals during the day and four-hour intervals at night.

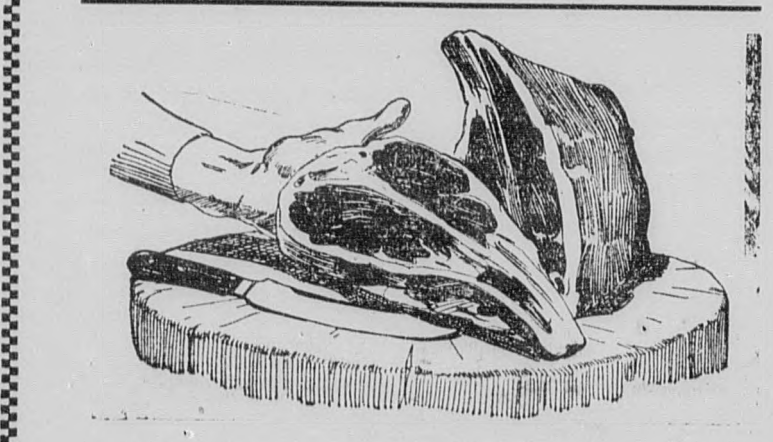

From Fifth Month to Seventh Month.
Milk, evaporated 12 ounces
Lime water 2 ounces
Milk sugar 2 ounces
Boiled water 24 ounces
Five feedings in twenty-four hours, 1 to 6 ounces at three-hour intervals during the day and four-hour intervals at night.

From Seventh Month to Ninth Month.
Milk, evaporated 12 ounces
Lime water 2 ounces
Milk sugar 2 ounces
Boiled water 24 ounces
Five feedings in twenty-four hours, 1 to 6 ounces at three-hour intervals during the day and four-hour intervals at night.

From Ninth Month to Twelfth Month.
Milk, evaporated 12 ounces
Lime water 2 ounces
Milk sugar 2 ounces
Boiled water 24 ounces
Five feedings in twenty-four hours, 1 to 6 ounces at three-hour intervals during the day and four-hour intervals at night.

From Twelfth Month to First Month.
Milk, evaporated 12 ounces
Lime water 2 ounces
Milk sugar 2 ounces
Boiled water 24 ounces
Five feedings in twenty-four hours, 1 to 6 ounces at three-hour intervals during the day and four-hour intervals at night.

Meat You Will Enjoy

There are several reasons why you can and will enjoy meat from this market more than usual. Only the choicest meats are ever allowed to enter here, and then their goodness is guarded most carefully—the utmost cleanliness is insisted upon at all times.

Phone Us For Your Groceries

Our store has always been considered the best place in town to buy your groceries. We carry only that class of goods that we can recommend for the highest quality, and they will surely please you.

And for QUICK DELIVERY our store cannot be excelled. Your order whether small or large will receive our very best attention.
